Not Your Keys, Not Your Crypto

Problem: Privacy (and Security and Transparency)

Applications: cryptocurrency wallets, all communication, IP addresses, mailing addresses, voting, etc.

Not Your Keys, Not Your Crypto

Findings:

If you're seeking it, you haven't found it.

How you treat others, is how you get treated by others.

For example:

security arms race continues
surveilling the surveillors

Not Your Keys Not Your Crypto

Solution:

Offline wallet generator

see Prototype and Demo2
